

ŠIAULIAI

How to play: Find as many game pieces as there will be players. All are suitable: chestnuts, acorns, sweets and other small items from your pocket. If you don't have a dice, never mind. Ask your parents for 6 coins of the same denomination. Shake them in the palm of your hand, throw and see –the numbers that have turned up will determine the number of squares you will rush forward.

Every object has a meaning. You can get acquainted with the objects of the city of Šiauliai, which will allow you to ascend or make you descend, in advance.
